About Us

Since its inception in 2017, the brand Jasper has swiftly established itself as a dynamic and forward-thinking entity in the market. With a profound commitment to innovation and creativity, Jasper set out to challenge the status quo and fill the void of ground breaking and superior-quality products in various industries. Through its core philosophy of offering smart, innovative, and exceptional solutions, Jasper has emerged as a prominent name in Central India, catering to regions such as Madhya Pradesh, Chhattisgarh, Maharashtra, Rajasthan, Uttar Pradesh and Telangana.

One of the standout features of Jasper is its extensive range of manhole covers, making it the leading manhole cover company in Central India. By prioritizing superior materials, durability, and design, Jasper has solidified its reputation as a trusted provider of essential infrastructure components.

As Jasper continues to elevate its presence and expand its offerings, the brand is venturing into additional market segments to meet evolving consumer needs. In addition to its renowned manhole covers, Jasper is now delving into diverse areas such as tile adhesives and chemicals, water filtration and drainage solutions, as well as electric water geysers.

The success story of Jasper is a testament to the brand's relentless pursuit of excellence and unwavering commitment to quality. By staying true to its founding principles of innovation, creativity, and service excellence.

Looking ahead, Jasper is poised to continue its trajectory of expansion and diversification, aiming to cater to a wider audience across various industry sectors. With a strong focus on customer satisfaction, product innovation, and operational excellence, Jasper remains dedicated to shaping the future of infrastructure solutions in Central India and beyond.

Building Trust Through Integrity Integrity lies at the heart of Jasper's business ethos. The brand's commitment to honesty and integrity extends beyond the products themselves. Jasper strives to build trust with its customers by fostering long-term relationships based on reliability and ethical business practices.

INTRODUCING JASPER ELECTRIC GEYSERS

When it comes to the comfort and convenience of your home, having a reliable and efficient water heater is essential. Whether you are looking to upgrade your current water heating system or are in need of a new one, the introduction of a new and fresh water heater brand, Jasper, promises to revolutionize the way we experience hot water in our homes.

Jasper is a brand that has quickly gained recognition and reputation for its innovative technology, energy efficiency, and durability. With a commitment to providing high-quality products that meet the needs of modern households, Jasper water heaters are designed to deliver hot water efficiently while also being environmentally friendly.

One of the standout features of Jasper water heaters is their advanced technology. Equipped with best in class equipments, Jasper water heaters can adjust water temperature and energy usage based on your usage patterns, helping you save on energy costs while ensuring a constant supply of hot water.

By using the latest insulation materials and heating elements, Jasper water heaters are able to heat water quickly and maintain its temperature for longer periods, reducing energy wastage and ultimately saving you money on your utility bills.

Built with high-quality materials and craftsmanship, Jasper water heaters are designed to withstand the test of time, providing you with reliable hot water for years to come. With regular maintenance and care, a Jasper water heater can outlast many other brands on the market.

In conclusion, the introduction of Jasper as a new and fresh water heater brand presents an exciting opportunity for homeowners to upgrade their water heating systems with reliable, efficient, and durable products. With advanced technology, energy efficiency, and a range of models to choose from, Jasper water heaters are set to become a popular choice among consumers looking for a superior hot water solution.

Features

POLYMER GLASS NANO COAT TANKS

Withstands temperatures. Long lasting, even in hard water.

PLATED HEATING ELEMENT

2 K.W. Nickel plated element for higher heating efficiency & longer life. It gives hot water 33% faster.

MAGNESIUM ANODE ROD

Made using high-quality magnesium specifically designed to provide long-lasting use and collect contaminants from water hearts.

POWERFUL HEATING ELEMENT

Comes with a 1200 gm superior heating element that provides faster heating to give you perfect hot water in 10 mins.

Thermal Cut Out

it ensures the safety of your family by preventing the water from reaching dangerously high temperatures. Secondly, it helps to extend the lifespan of the heating element by avoiding overheating.

Features

5 STAR RATING

A warranty is a form of guarantee that a manufacturer offers to repair or replace a faulty product within a window of time after purchase.

0.8 MPa HIGH WORKING PRESSURE

Suitable for high rise buildings.

Multi-function Safety Valve

This safety valve acts as a non-return valve if pressure or temperature exceeds the preset limits.

PUFF INSULATED TANK

High grade stainless steel tank is used in the water heater, which will provide protection to our geyser from rust for a long time.

7 YEAR WARRANTY

The geyser boasts a 5-star energy rating, highlighting its energy-efficient design. This ensures not only quick hot water but also cost savings on electricity bills, making it an environmentally friendly and economical choice.

How to select your water heater

HOW TO CHOOSE YOUR WATER HEATER

Key things should know when selecting your water heaters

What should be the **capacity of the water heater**?

The capacity of the water heater depends on the kind of usage :

<p>Instant Water Heater</p> <p> Bathing Bucket</p> <p> Pleasant Weather</p> <p>3 Members</p> <p>1 - 3L Suggested Capacity</p>	<p>Instant Water Heater</p> <p> Washing Utensils</p> <p> Cold Weather</p> <p>6 Members</p> <p>3 - 5L Suggested Capacity</p>	<p>Storage Water Heater</p> <p> Bathing Shower</p> <p> Pleasant Weather</p> <p>4 Members</p> <p>6L Suggested Capacity</p>
<p>Storage Water Heater</p> <p> Bathing Bucket</p> <p> Cold Weather</p> <p>6 Members</p> <p>15L Suggested Capacity</p>	<p>Storage Water Heater</p> <p> Bathing Bucket</p> <p> Pleasant Weather</p> <p>6 Members</p> <p>6-10L Suggested Capacity</p>	<p>Storage Water Heater</p> <p> Bathing Shower</p> <p> Cold Weather</p> <p>6 Members</p> <p>25L Suggested Capacity</p>
