## INTRODUCING JASPER ELECTRIC GEYSERS

When it comes to the comfort and convenience of your home, having a reliable and efficient water heater is essential. Whether you are looking to upgrade your current water heating system or are in need of a new one, the introduction of a new and fresh water heater brand, Jasper, promises to revolutionize the way we experience hot water in our homes.

Jasper is a brand that has quickly gained recognition and reputation for its innovative technology, energy efficiency, and durability. With a commitment to providing high-quality products that meet the needs of modern households, Jasper water heaters are designed to deliver hot water efficiently while also being environmentally friendly.

One of the standout features of Jasper water heaters is their advanced technology. Equipped with best in class equipments, Jasper water heaters can adjust water temperature and energy usage based on your usage patterns, helping you save on energy costs while ensuring a constant supply of hot water.

By using the latest insulation materials and heating elements, Jasper water heaters are able to heat water quickly and maintain its temperature for longer periods, reducing energy wastage and ultimately saving you money on your utility bills.

Built with high-quality materials and craftsmanship, Jasper water heaters are designed to withstand the test of time, providing you with reliable hot water for years to come. With regular maintenance and care, a Jasper water heater can outlast many other brands on the market.

In conclusion, the introduction of Jasper as a new and fresh water heater brand presents an exciting opportunity for homeowners to upgrade their water heating systems with reliable, efficient, and durable products. With advanced technology, energy efficiency, and a range of models to choose from, Jasper water heaters are set to become a popular choice among consumers looking for a superior hot water solution.

## Features

### **POLYMER GLASS NANO COAT TANKS**

Withstands temperatures. Long lasting, even in hard water.

---

### **PLATED HEATING ELEMENT**

2 K.W. Nickel plated element for higher heating efficiency & longer life. It gives hot water 33% faster.

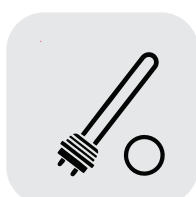

---

### **MAGNESIUM ANODE ROD**

Made using high-quality magnesium specifically designed to provide long-lasting use and collect contaminants from water hearts.

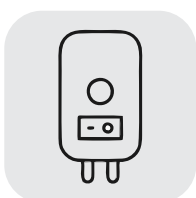

---

### **POWERFUL HEATING ELEMENT**

Comes with a 1200 gm superior heating element that provides faster heating to give you perfect hot water in 10 mins.

---

### **Thermal Cut Out**

it ensures the safety of your family by preventing the water from reaching dangerously high temperatures. Secondly, it helps to extend the lifespan of the heating element by avoiding overheating.

---

## Features

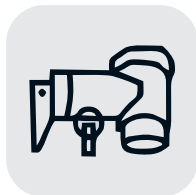

### **5 STAR RATING**

The geyser boasts a 5-star energy rating, highlighting its energy-efficient design. This ensures not only quick hot water but also cost savings on electricity bills, making it an environmentally friendly and economical choice.

### **0.8 MPa HIGH WORKING PRESSURE**

Suitable for high rise buildings.

### **Multi-function Safety Valve**

This safety valve acts as a non-return valve if pressure or temperature exceeds the preset limits.

### **PUFF INSULATED TANK**

High grade stainless steel tank is used in the water heater, which will provide protection to our geyser from rust for a long time.

### **7 YEAR WARRANTY**

A warranty is a form of guarantee that a manufacturer offers to repair or replace a faulty product within a window of time after purchase.

# HOW TO CHOOSE YOUR WATER HEATER

Key things should know when selecting your water heaters

## What should be the **capacity of the water heater?**

The capacity of the water heater depends on the kind of usage :

Instant Water Heater	
	Bathing Bucket
	Pleasant Weather
3 Members	
1 - 3L Suggested Capacity	

Instant Water Heater	
	Washing Utensils
	Cold Weather
6 Members	
3 - 5L Suggested Capacity	

Storage Water Heater	
	Bathing Shower
	Pleasant Weather
4 Members	
6L Suggested Capacity	

Storage Water Heater	
	Bathing Bucket
	Cold Weather
6 Members	
15L Suggested Capacity	

Storage Water Heater	
	Bathing Bucket
	Pleasant Weather
6 Members	
6-10L Suggested Capacity	

Storage Water Heater	
	Bathing Shower
	Cold Weather
6 Members	
25L Suggested Capacity
